## Florida Fruit and Produce News.

To the successful operation of the Florida Citrus Exchange, which is being rapidly organized all over the orange growing sections of the state, nothing is of greater importance than that the members of the various sub-exchanges and associations should be kept in close touch with each other and with headquarters, and thoroughly informed on every subject of interest to the organization. In no better way can this be done than by subscribing for the official organ of the Exchange, "The Florida Fruit and Produce News." In point of fact it is the duty of every member of the Exchange, to himself as well as to the organization, to support its official organ which as its mouthpiece is part and parcel of the exchange itself. We don't think the matter needs further argument.

Subscriptions for the Produce News will be received at the TRIBUNE office and promptly forwarded. The price is one dollar per year.
